

To the Editors:

Ethical regulation and the new reproductive technologies in Sri Lanka: perspectives of ethics committee members

In the version of the above article I submitted to the *CMJ*, I inadvertently left out the acknowledgement section. I would be grateful to you if you publish the following acknowledgements in the September issue (46: 2) of your Journal.

I thank all the ethics committee members who generously gave their time and shared their views with me, the *Ceylon Medical Journal* and Dr Vajira Dissanayake, who put me in touch with members of the various ethics committees in Sri Lanka.

Bob Simpson, *Department of Anthropology, University of Durham, Durham DH1 3HN, UK.*
